

AVTranz – Vermont Judiciary

AVTranz has been awarded a state-wide transcription services contract.

September 29, 2011, Phoenix, AZ – AVTranz today announced that it has received and signed an appointment and interim agreement with Vermont Judiciary to provide transcription services for the entire state court system. The Judiciary expects to negotiate final terms and sign a contract in the coming weeks.

"AVTranz is currently providing transcription service to the New Hampshire Judicial Branch and this award will extend our presence in the greater New England area," said Steve Townsend, AVTranz' CEO.

Much like the New Hampshire Judicial Branch, the Vermont Judiciary is an example of a court system leveraging technology to solve problems and provide great customer service. The Judiciary uses a combination of tape and digital audio recording to capture the record and should be fully digital in the future.

According to Erik Lige, AVTranz' VP of Sales & Marketing, "AVTranz is looking forward to rolling out our online rich media management system, The Court Record Online, to facilitate the entire transcription ordering and production process through a secure, hosted website for the Vermont Judiciary early next year."

AVTranz has experienced significant growth over the past 3 years and is now producing over 45,000 pages of certified transcript each month. Lige stated, "This award and our growth is a great example of the progression from stenographic reporting to high quality digital audio/video recording and transcription happening in court systems across the country. That opportunity was recently discussed by the AAERT Planning Task Force in the video they released earlier this week - [AAERT State of the Industry 2011](#)."

About AVTranz:

AVTranz, headquartered in Phoenix, with offices in Tucson and Denver, was established in 1991 and is the leading provider of verbatim transcription and electronic reporting services in the US. Since its inception, AVTranz has subscribed to the principle that its clients are best served through a broad base of digital

reporting and transcription knowledge. AVTranz specializes in digital reporting and transcription of state and federal court proceedings, complex litigation proceedings, military disciplinary proceedings, depositions, arbitrations, grievance hearings and administrative proceedings including public hearings, board and committee meetings, and industrial claims proceedings.
